

**Your problem...**

**...our business**

**BlueHouse know blocked drains are unpleasant, but leaking drains are also the second highest cause of subsidence, accounting for around 15-20% in domestic properties.**

BlueHouse can offer a complete domestic drainage solution, from unblocking and cleaning to replacement and repair, using the latest patching and relining technology.

For your peace of mind, we also undertake CCTV surveys using state-of-the-art inspection systems with embedded WinCan® software, instantly generating reports that will graphically display your pipe(s) and any defects that may require repair.

Services include:

- High pressure jetting
- Drain clearance and descaling
- Root removal
- Planned drain maintenance
- In-situ (non-invasive) drain relining and patching
- Drain replacement
- Comprehensive CCTV drainage surveys and reporting
- Pre-purchase drain surveys.

BlueHouse offer a quick reliable service with competitive rates and all repairs are guaranteed for five years.
